Shanghai, China

EDUCATION

- **University of Electronic Science and Technology of China(UESTC)** 2019.9 - 2023.6
B.Eng in Computer Science, B.A in English, Minor in Mathématiques Chengdu, China
 - GPA: 3.6/4.0
 - Main Courses: Data Structures and Algorithms, Computer Architecture, Computer Organization, Operating Systems, Computer Networks, Real Analysis, Complex Analysis, Differential Equations, Probability Theory, Statistics, Geometry
- **Tongji University** 2023.9 - 2027.6
M.Phil in Mathématiques Shanghai, China
 - Grade: 83/100
 - Main Courses(Ph.D Level): Commutative Algebra, Advanced Real Analysis, Measure-Theoretic Probability
 - Advisor: [Prof. Xiping Zhang](#)
 - Entrance Exam Ranking: 2/153
 - Master Thesis: A Closed-Form DFT Algorithm Based on Winograd DFT for Large-Scale Signal Processing

ACADEMIC EXPERIENCE

- **University of Minnesota Twin Cities** 2026.2 - 2026.4
Research Assistant (Remote), Advised by [Prof. Zirui Liu](#) Remote
 - Conducted case study implementation(Langmem Memory System) for QA and Prediction tasks in a paper that constructs a Memory System benchmark. Currently under review at NeurIPS 2026.
 - <https://arxiv.org/pdf/2606.22877>
- **Feeling AI & Hong Kong University MMLab** 2026.3 - present
LLM Research Assistant, Advised by [Dr. Xinyu Pan\(CUHK MMLab\)](#) and [Prof. Bo Dai\(HKU MMLab\)](#) Shanghai, China
 - Proposed an algorithm based on reinforcement learning for online incremental management and structural adaptation of agent memory systems. (To be submitted to ICLR 2027.)
- **Tongji University** 2023.9 - 2024.6
Research Assistant Shanghai, China
 - Based on Winograd's fast DFT algorithm, leveraging properties of cyclotomic polynomials to extend it to $Q(i)$, an extensible algorithm that reduces time complexity is proposed.

INDUSTRY EXPERIENCE

- **Shanghai Zhanhong Investment Co.Ltd(AUM 10B+ CNY)** 2025.4 - 2026.3
HFT Quantitative Researcher Intern
 - Design a dynamic programming algorithm and implement a high-performance exchange matching engine in C++ based on this algorithm.

SKILLS

- **Programming Languages:** Python, C++, Linux Shell, PyTorch, Git Bash
- **Database Systems:** MySQL, ClickHouse, Dolphindb
- **Cloud Technologies:** Kubernetes

HONORS AND AWARDS

- **Mathematics competition of Chinese College Students(CMC)** 2021/2022
Chinese Mathematical Society
 - First Prize in SiChuan Province
